Clear Plastic Plant Sleeves - Great for preparing your young violets or other plants for a sale event. The sleeves allow your customers to handle and inspect your plants without damaging them. They also protect your plants during transport. The sleeves measure 8" tall, and are open at the top and the bottom. The bottom opening is approximately 2" wide; the top opening is approximately 5 1/2" wide. You can use them to sleeve plants growing in pots as small as 1" in diameter, and as large as 2 1/2" in diameter. (Plants growing in pots larger than 2 1/2" in diameter need the larger plant sleeve offered below.)

The small plant sleeves can be made to fit any pot round or square that is larger than 1" diameter by trimming of the excess at the bottom of the sleeve. They cut easily with scissors. For example, to use a sleeve on a plant growing in a 2" diameter pot cut off 2" from the bottom for the sleeve.

The small sleeves are not intended for pots larger than 2 1/2" in diameter. The photo above shows plants in sleeves that have been trimmed to fit a 2" pot and a 2 1/4" pot.

Small Plant Sleeves Item #260 per packet of 50, \$6.49, 3 oz.;

Item #264 **per pack of 50**, \$4.39, 3 oz. (This size is a closeout item, no photo.)

Plant Sleeve w/ handle - These are heavier gauge plastic than the sleeves above. Made of clear, glossy plastic they have a solid cup-like base. They will accommodate up to a 4" pot either standard or azalea type. One edge of the top has a molded handle. They show off the plants you are selling and protect the plants when they are subjected to transport and to being handled by customers. 8 1/2" tall at the highest point.

NA =
Ground Service not available

Use the first three digits of your zip code and the chart above to determine your UPS shipping zone in relation to our shop. For example, for zip code 02184 you would use UPS Ground Zone 7 since the first three digits of 02184 fall between 010 – 043 on the chart above. Next, take the total weight of your order in pounds from your order blank (See p. 27) and use the UPS Rate Chart on p. 26 to see the amount UPS will charge to send a package of that weight to you. If your zip code has the designation "not available" next to it then UPS Ground Service is not possible to your area and we will mail your order to you. Most areas of the country are served by UPS Ground Service therefore, we do not include a zone or rate chart for postal shipments. The cost is quite similar. UPS includes insurance up to \$100 value in their rates on p. 26. Insurance is additional on shipments sent with the US Postal Service.
