

# PLANT STANDS

## Supplement to The Violet Showcase Growing Supplies Catalog 2016

A variety of styles and sizes of lighted plant stands are available ranging from small table models to large free standing units. All items are shipped via United Parcel Service directly from the factory to you except the grids for the trays. The grids will come from The Violet Showcase.. Most customers receive their stands within 5 - 8 working days after the order is placed with the factory. *The factory will not ship stands via the U. S. Postal Service. The prices shown below are for the product only and do not include shipping.* Please contact The Violet Showcase with the address to which a stand of interest to you will be sent. You will be contacted with a shipping quote.

### Table Model Grow Lite Stands

Both sizes of these grow lights will set easily on any flat surface of suitable length. The smaller unit (left) is 26.5" long and will accommodate 6 - 8 violets. The larger unit is 50.5" long and will take 14 - 18 violets (right). Each stand comes with two T12 Wide Spectrum fluorescent grow lights to provide optimum light for sturdy growth and bloom.

The fixtures hold the lamps 6" apart (center to center) and measure either 24" (or 48") long by 10" by 2 1/8" and have a high gloss white finish.

You can easily raise or lower the fixture above the growing surface with the easy to use slide and tighten feature which holds the fixture to the legs. The legs are 26" tall and are made of 1" square shiny aluminum.

The base of the legs measures 11 3/4" front to back. The fixture may be positioned as close as 1" from the table top or as high as 24" above the table top. Most violet growers find 12 - 15" is ideal. Each stand comes with a 5-foot long, three wire cord with a 3 prong plug, and has a built in on/off switch. The switch is on the underside of the fixture near the power cord. If desired you may operate either stand with an appliance timer (not included). Easy assembly! Just install the lamps in the fixture and slide it onto the legs. Does a wonderful job on violets and many other house plants, or for seed starting.

Item #753 **24" Two Lamp Table Model:** \$106.69 ;

Item #755 **48" Two Lamp Table Model:** \$138.59

**JUMP START GROW LIGHT SYSTEM** - This attractive table top grow light uses a 24 watt high output (T-5) Full Daylight Spectrum fluorescent lamp (6400K). T5 lamps are much thinner in diameter (approximately 1/2") than typical T12 fluorescent lamps and are twice as efficient and 20% brighter than ordinary grow lights. The fixture hangs on sturdy nylon cords from the upper cross bar. Raise and/or lower the fixture over your plants by loosening or tightening the center cord. Perfect for seedlings, cuttings, houseplants and more. Has a 3 wire 6 foot grounded power cord with a built-in on/off switch. The fixture is 23 3/4" long. The sturdy green metal frame is 26.5" wide and 24 1/2" tall. The base legs measure 18" front to back. Simple and quick assembly. A sturdy, sleek, and durable system. Replacement lamps available below.

Item #751 **Jump Start Grow Light System** \$75.89

item #751A **Jump Start 24 watt replacement lamp** \$9.99, 4 oz.

**Value Line Economy 24" Two Lamp Table Model** - a more utilitarian fixture which will provide

a great small growing area. This Economy stand is white and has closer lamp spacing (2.5" center to center) than #753 and #755 (above). It has simpler, thinner, aluminum legs, and does not have an on/off switch. It comes with a 5 foot, 3 wire, grounded cord and two 20 watt 24" Sylvania Wide Spectrum lamps. The legs measure 17" tall. The base of the legs measures 10.25" front to back. To raise or lower the fixture above your plants loosen the black plastic knobs on each end. Retighten in the desired position. This unit will fit into smaller spaces than #753 above. Easy assembly.

Item #752 **Economy 24" 2 Lamp Table Model,** \$63.69

## Floor Model Grow Lite Stands

The floor model stands come in several different sizes. Most models are available only with a bright aluminum finish. The Tall 'N' Trim Compact stand is also available with a dark chocolate brown finish. The frames of the Floor Model stands are made of rugged, 1" square aluminum tubing. The horizontal tray support bars remain in a fixed position. The light fixtures can be

easily raised or lowered over the plants by means of a unique slide system. The fixtures can be lowered as close to the trays as you wish. Simply loosen the black knobs at the ends of each fixture and raise (or lower) the fixture to the desired height; then retighten each knob. A "brake" bolt is included for each end of each fixture to prevent it from accidentally crashing down on the plants on the tray below. (See photo at left.) On most of the stands the fluorescent lamps in the fixtures are held 11 1/2" apart measured center to center. On the thinner stands, (#756 Double Decker and #759 Tall 'N' Trim Compact Stand), where the trays are oriented end to end rather than side by side the fixtures are also narrower and the lamps are positioned closer together. The white, baked enamel fixtures come fully assembled. Each fixture has a 36", 3 wire, grounded cord with a three pronged plug and with a 3 hole, grounded convenience outlet built into the end panel so that the fixtures can be plugged into each other. Each fixture is only 2 1/8" deep for a very trim look. Each fixture has a built in on - off switch that allows for individual control, and has fully enclosed ends which protect the end sockets and lamps.

The Full Size Lite Cart (#763) and the Double Decker Compact stand are available equipped with either T12 lamps or with T8 lamps. These sizes refer to the lamp diameter. T12 lamps are 1 1/2" in diameter; T8 lamps are 1" in diameter. T8 lamps are brighter and more electrically efficient than T12

lamps.

The Full Size Lite Cart is also available with fixtures that hold four fluorescent lamps per fixture. This will provide more light for growing orchids and other plants which demand brighter light than African violets need.

The Full Size Light Cart and the Compact Lite Cart are available with either 3 or 4 lighted levels. The same sized frame is used for both types. The distance between levels on a 3 level stand is 18". The distance between levels on a 4 level stand is 13 1/4". One style divides the height of the frame into thirds; the other into fourths.

The trays measure 11 x 22" and are made of sturdy, tan colored plastic. You can order the trays with or without the white plastic grid-like inserts. The grids fit inside the top edges of each tray and allow your plants to sit above any water in the tray below. This is useful for increasing humidity or for wick watering, or both. See page 4 of the Growing Supplies catalog for a photo of how the grids fit into the trays. The plant stand frame, the fixtures with lamps, and the trays will be shipped directly from the factory to you. The grids for the trays will come from The Violet Showcase to you. Stand assembly takes approximately 30 minutes or less and requires only a screwdriver. All hardware and complete instructions included. All of the Floor Model Stands come with 3" black rubber casters except the Double Decker (#756) sold on p. 3, and the Economy Flower Stand (#783) sold on p. 4.

**Shipping Charges:** *The prices shown are for the product only and do not include shipping. All stands are drop shipped via UPS Ground from the manufacturer to the customer except for the grids for the trays. The grids will come from The Violet Showcase. Please contact The Violet Showcase with the address to which the stand will be shipped. You will be contacted with a shipping quote. Details p. 4*

**The Full Size LITE CART** (photos show the 3 level on right, and the four level on the left.) Each of the lighted levels on the Full Size Lite Cart has four 11 x 22" tan trays. Each level is lighted by a white fixture which includes either T12 Wide Spectrum Grow Lamps or T8 lamps

depending on which option you choose. You may choose fixtures that hold 2 lamps or 4 lamps depending on how bright you need the light to be. You can raise the fixtures up to 18" above the trays. The trays are held in a fixed position by the horizontal cross bars at the front and the back of the frame. The stand is 52.5" wide, 23.5" deep, and 73 1/4" tall including the 3" casters. The height of the 4 level stands is the same as that of the 3 level stands. This means the distance between shelves is less on the 4 level stands.

### Full Size Lite Cart : 3 Level Stands with T12 fixtures:

**Item #763** with 2 lamps fixture, and grids, **\$598.39** ; **Item # 763A** with 2 lamp fixtures, no grids, **\$561.19**

**Item #760B** with 4 lamp fixtures, and grids, **\$926.29**; **Item #760C**, with 4 lamp fixtures and no grids **\$883.49**

**The Compact LITE CART** ( 3 level at left, 4 level at right.) The Compact Lite Cart is wonderful for those who do not want to give up as much floor space to growing as the larger Full Size Lite Cart requires. The Compact Lite Cart is only 1/2 as wide. Each lighted level has two 11 x 22" tan trays. Each level is lighted by a white fixture which includes T12 Wide Spectrum Grow Lamps. There is no option to have T8 fixtures in the Compact Lite Carts. You may choose fixtures that hold 2 lamps or 4 lamps depending on how bright you need the light to be. Just as with the Full Size Lite Cart the trays rest on the horizontal cross bars at the front and back of the frame. There are two different styles of the Compact Lite Cart. One style has 3 lighted levels; the other has 4 lighted levels. Both are available in the Bright Aluminum finish only. The same sized frame is used for the 3 level and for the 4 level stand. The light fixtures can be raised 18" above the trays on the 3 level stand; the light fixtures can be raised 13 1/4" above the trays on the 4 level stand. One style divides the available frame space into thirds, the other divides it into fourths. The frame is 26.75" wide, 23.5" deep, and 73.25" tall including the 3" casters.

Each level is lighted by a white fixture which includes T12 Wide Spectrum Grow Lamps. There is no option to have T8 fixtures in the Compact Lite Carts. You may choose fixtures that hold 2 lamps or 4 lamps depending on how bright you need the light to be. Just as with the Full Size Lite Cart the trays rest on the horizontal cross bars at the front and back of the frame. There are two different styles of the Compact Lite Cart. **Item #782B Compact Lite Cart 3 Level** with grids **\$564.39**;

**Item #782F Compact Lite Cart 3 Level** without grids **\$543.89**;

**Compact Lite Cart : 4 Level Stands with 2 lamp fixtures:**

**Item #764 Compact Lite Cart 4 level** with grids **\$551.39**; **Item #764D Compact Lite Cart 4 level** without grids **\$529.29**

**Compact Lite Cart : 4 Level Stands with 4 lamp fixtures:**

**Item #764C Compact Lite Cart 4 level** with grids **\$728.29**; **Item #764F Compact Lite Cart 4 level** without grids **\$711.39**

The **Double Decker Compact Stand** features two, plastic, 11" x 22" tan trays per level. The trays are oriented end to end making the Double Decker ideally suited to growing locations where space is a factor, such as in a hallway. The trays can be used as humidity trays, or as wick watering trays if you order the stand with the grids. Each level is lighted by a white fixture which includes either two T12 Wide Spectrum Grow Lamps or two T8 lamps depending on which option you choose. There is no option for 4 lamps fixtures on this stand. The fixtures can easily be raised and lowered over the trays by the same slide system used on the larger stands. The trays remain in a fixed position but you can raise the fixtures up to a maximum of 18" above the trays. No casters come with this stand. The Double Decker Compact Stand measures 40" tall x 52.25" long x 12.75" deep and is available in Bright Aluminum finish only.

**Double Decker Compact Stand with T12 fixtures:**

**Item #756 Double Decker Compact Stand** with grids **\$319.49**;

**Item #756B Double Decker Compact Stand** without grids **\$309.19**;

**Double Decker Compact Stand with T8 fixtures:**

**Item #756A Double Decker Compact Stand** with grids **\$318.69**;

**Item #756C Double Decker Compact Stand** without grids **\$307.59**

**Tall 'N' Trim Compact Stand** This stand offers the same growing area as the Double Decker stand, but needs less floor space. The 11 x 22" tan plastic trays are arranged one per level on each of the four levels and are oriented with the long dimension parallel to the fluorescent fixtures. This makes for a very trim unit which needs an area measuring only 12 x 27". The Tall 'N' Trim stand includes 3" casters for easy mobility and measures 74" in height. Each of the four levels is lighted by a double tube, white, fluorescent fixture which includes two 24" Sylvania T12 Wide Spectrum lamps per fixture. The fixtures can easily be raised and lowered over the trays by the same slide system used on the larger stands. The trays remain in a fixed position. The fixtures on this stand do not plug into each other. It is most conveniently operated using a power strip cord (not included). The Tall 'N' Trim stand is available with the Bright Aluminum or the Brown finish. There is no 4 lamp option available for this stand, nor is there a T8 option.

**Item #759 Tall 'N' Trim Compact Stand Bright Aluminum with grids \$431.19;**  
**Item #759B Tall 'N' Trim Compact Stand Bright Aluminum no grids \$420.29;**

**Item #759A Tall 'N' Trim Compact Stand Brown with grids \$568.29;**  
**Item #759C Tall 'N' Trim Compact Stand Brown without grids \$552.19**

**Economy Flower Stand** This economical stand can be used in many different growing situations. You can order the stand with or without light fixtures and with or without grids for the trays. The frame holds three 11 x 22" sturdy, white, plastic trays. Sometimes the stands are shipped with green trays. One tray rests on each level. The frame is made of rugged, silver powder coated, round, steel tubes which you join together using the tough, black plastic connectors. There are no casters with the economy Flower Stand. The fixtures that can be ordered to go with this stand hang from the frame on chains. You can raise or lower the light fixtures in 1/2" increments. The fixtures come complete with two 24", 20 watt Sylvania Wide Spectrum T12 lamps. There are no power outlets built into these more economical fixtures, nor are there on/off switches. The Economy Flower Stand measures 36 1/2" tall by 27 1/2" long by 12 1/2" front to back.

If positioned in front of a patio door this stand is unlikely to need the fluorescent fixtures. Placed at a conventional window the grow lights would provide for the lower levels while the window light could be sufficient for the plants on the top tray.

**Item #783 Economy Flower Stand with grids and 2 fixtures \$153.79;**  
**Item #783A Economy Flower Stand with 2 fixtures, but no grids \$143.59;**  
**Item #783B Economy Flower Stand with grids, but no fixtures \$54.19;**  
**Item #783C Economy Flower Stand with no fixtures and no grids \$40.29**

**Fluorescent Grow light lamps are also sold separately. See p. 22 of the Growing Supplies catalog.**

**SHIPPING CHARGES:** *The prices shown are for the product only and do not include shipping. All stands are drop shipped via UPS Ground from the manufacturer to the customer except for the grids for the trays. The grids will come from The Violet Showcase. Please contact The Violet Showcase with the address to which the stand will be shipped. You will be contacted with a shipping quote.*

*If you submit an order with an incorrect address you will be responsible for any charges from the carrier for returning, updating, or forwarding your shipment to a different address.*

**VISIBLE DAMAGE:** *If your stand is visibly damaged upon arrival, please: 1. Inspect the contents while the delivery person is there. If damaged, you should refuse delivery and UPS will return the package(s) to the sender.*

*2. If the delivery driver is already gone, call your local UPS terminal to notify them of the damage. Keep all packing materials until the shipment is inspected and a claim is issued.*

*3. Please notify The Violet Showcase of the damage after you notify UPS. 4. Replacement items will be shipped promptly.*

**RETURN + PRICE POLICY:** *10% restocking fee and return shipping charges on all return items. Free replacement of damaged goods. For all returns please call first to obtain a return merchandise authorization (RMA) number and to explain your reason for return. Return shipping to be paid by the customer. Prices and specifications subject to change without notice.*
